PETITIONING THE COURT

To incorporate the violation contained in this petition in future proceedings with the violations previously reported to the Court on 7/26/2023.

On October 11, 2022, supervised release conditions were reviewed and signed by Mr. Lopez, acknowledging an understanding of his requirements.

The probation officer believes that the offender has violated the following condition of supervision:

<u>Violation Number</u>	<u>Nature of Noncompliance</u>
3	<u>Special Condition #4:</u> You must abstain from the use of illegal controlled substances, and must submit to urinalysis and sweat patch testing, as directed by the supervising officer, but no more than 6 tests per month, in order to confirm continued abstinence from these substances.

Supporting Evidence: Mr. Perez is considered to be in violation of his conditions of supervised release by consuming methamphetamine on or about August 12, 2023.

On August 14, 2023, Mr. Perez reported to the U.S. Probation Office in Yakima, Washington, for the purpose of providing a urinalysis test. The urine sample provided by Mr. Perez tested presumptive positive for methamphetamine and was sent to Alere Toxicology for confirmation.
